

# THRESHOLD BOLT

## TB4015

### BOLT

- 3/8" Hexagonal bolt, with corrosion resistant plating
- Height relative to Deadbolt is adjustable by threaded rod
- Included rod accommodates cylinder heights up to 53-1/2"
- Held in place by Bolt Guide, mounted to door face with included machine screws

### STRIKE

- Provide 1/2" diameter hole in threshold or floor to accommodate drop bolt

### OPERATION

- Threshold Bolt is mounted to rear of Deadbolt with included pin, and extends simultaneously with horizontal bolt on operation of key or thumbturn in Deadbolt
